

Dear Parents,

The following spreadsheet is a list of school supplies needed for high school. Grade 8 and 9 students are provided with a drawer in the science lab, where they can keep their supplies. Too often, students come to class without paper, pencils, etc... This does impact learning, because I will use valuable class time making sure that everyone has what they need for the lesson. If students are prepared and ready to learn, we can do so much in the classroom.
